### ELECTRODE FOR LEVEL CONTROL

|                       |                                 |
|-----------------------|---------------------------------|
| Body material         | Polypropylene                   |
| Colour                | Grey                            |
| Electrode             | Stainless Steel Aisi 303.       |
| Length of electrode   | 100 mm.                         |
| Process connection    | With cable.                     |
| Electrical connection | By terminal.                    |
| Maximum temperature   | +70 °C                          |
| Pressure              | 10 K/cm <sup>2</sup> at +60 °C. |
